PROFESSIONAL SUMMARY

Android Developer with **5 years** of experience building production apps in **Kotlin** and **Java**, including 3.5+ years owning core modules of **POS and order management apps**. Skilled in **MVVM, Jetpack Compose, Coroutines, Flow, Paging 3, Room, Retrofit** and **Dagger**, with hands-on payment terminal, printer and Firebase integration.

TECHNICAL SKILLS

Languages	Kotlin, Java, SQL
Android & Architecture	Android SDK, Jetpack Compose, Navigation, MVVM, Repository Pattern, Dagger, WebView, Push Notifications
Async, Data & Networking	Coroutines, Flow, Paging 3, Room, SQLite, Retrofit, OkHttp, REST APIs
Firebase & Quality	Firebase Crashlytics, FCM, LeakCanary, Performance Optimization
Integrations & Tools	Payment Gateways, PAX / Payroc, Star / Sunmi printers, Barcode scanning, Flutter, Git, Gradle, Claude Code

PROFESSIONAL EXPERIENCE

Apprication Pvt Ltd **Mar 2023 – Present**

Android Developer *Mumbai, Maharashtra*

Live apps (Google Play): QuickVee POS · QuickVee Owner App

- Architected and owned the **Purchase Order module**, rebuilt from scratch into 6 screens and 11 dialogs with multi-store routing and UPC/barcode scanning.
- Built **Inventory, Brands, Tags and Customer** modules end-to-end, including loyalty points, store credits and customer merge.
- Built app-wide **token authentication** on OkHttp interceptors with auto-refresh and global 401 handling across **259 API endpoints**.
- Integrated **70+ REST APIs** and designed the ViewModel and Repository layers.
- Built a **21+ age-verification system** with driver's licence scanning for all 50 US states, manager-PIN override and role-based permissions.
- Built the **partial-refund and exchange engine** with per-item selection, category-based tax splitting and loyalty/store-credit calculation.
- Implemented **Paging 3** app-wide, 5 thermal-print reports and a WebView JS-native bridge for CSV export, PDF sharing and secure sign-in.
- Raised stability to **98.8% crash-free sessions** using Crashlytics and LeakCanary; integrated **PAX, Payroc, Star and Sunmi** SDKs.

Rajkamal Barscan Systems Pvt Ltd **Nov 2022 – Mar 2023**

Android Developer *Mumbai, Maharashtra*

- Built Android apps from scratch in **Java** with **Retrofit and Room**, plus .NET web services and SQL Server stored procedures for CRUD.
- Handled client requirements directly and fixed production bugs.

NOVAC Technology Solutions Pvt Ltd **Oct 2021 – Nov 2022**

Software Developer *Navi Mumbai, Maharashtra*

- Built features for **Shriram MyExpense** (**100K+ Play Store downloads**) on Android (Java) and iOS (Flutter and Dart).
- Built the **360 Dashboard** with charts and lists, and Approve/Reject/Modify flows in the My Approval Dashboard (FNF, ELMS).
- Added barcode scanning in Flutter; integrated REST APIs with MySQL and SQLite local storage.

EDUCATION

Prahladrai Dalmia Lions College **2018 – 2021**

B.Sc. Information Technology *Mumbai, Maharashtra*

ACHIEVEMENTS & LANGUAGES

Completed a Data Structures and Algorithms course (LearnYard, 2024); active LeetCode problem solver since January 2024.

Languages: English, Hindi, Marathi
